

Ron

After graduating from college I entered the United States Navy. One of my former dorm roommates had previously entered the Navy and had gotten saved.

He began witnessing to me through letters. I requested that he not do that, but he continued to share what God was doing in his life. Several years later I read the book *The Late Great Planet Earth*. Thanks to my friend's faithful witness and the impact of the information in the book, I saw my need for a personal Savior and that was Jesus Christ.

Carol

Raised in a religious home, I heard the plan of salvation when I was 18 years of age. It took several months before I realized that Jesus had died for me personally. During Thanksgiving break as a 19 year old I accepted Christ as my Savior.

Their Ministry

Ron is currently (2006-2007) teaching computer applications in middle school at Faith Academy. The opportunity has arisen for him to teach computer applications in high school during the 2007-2008 school year.

Carol is presently teaching two high school physical education classes to mostly 9th and 10th graders. However, her main responsibility is the assistant principal in the high school. As AP Coordinator, dealing with discipline issues, keeping track of schedules, and doing whatever else needs to be done while working with nearly 300 high school students she is pretty busy. She also is starting to build relationship with Filipino educators as she has begun taking classes at a local Catholic university for a Masters in Administration.
