March 2008

My friends, I greet you in the Name of our Lord and Saviour Jesus Christ. I hope you are all well by the grace of God.

My friends, I want to explain to you my condition a little. It seems I was sick with the problem of gall bladder for some time but I was not aware of it until I got very sick with severe pain and the gall bladder swollen. On 1 August 2007 the gall bladder ruptured after great pain and I lost consciousness and I was taken to the hospital without knowing it. I regained consciousness but continued with pain until 28 August 2007. This hospital was afraid to operate on me in my condition, so I went to another hospital run by Indians and they operated on me quickly because of my bad condition. God's hand was very present. They said I was in a very dangerous condition with all this dirty fluid in my body now and they cleaned it all out. I was in Dar es Salaam all this time but I am now in Mwanza again. Two days after my operation, my mother died.

I know that many have gone through tough times in life but God has given strength. II Cor. 4:16-18. I ask you to continue to pray for me. Thank you for remembering me with love and helping me with your gifts which helps me so much. I will be going for a checkup again to see if things are continuing well.

May God be with us all as we share His love together forever.
