This letter is for all my friends in America, those who pray for me and help me with money. I send warm greetings to all of you. The money you send to me, I receive it, "a dog didn't eat it." But one other thing - and that is that I want to receive letters from some of the people who help me with money.

People like Doug Dawson and Nick Dugan. I get the money they send to me, but I want to get letters from them so I can know how things are going with them, so I can pray for them also.

Now we have reached the end of 2007. God has done many good things for us during the year. And I hope/expect that He will do more good things in the year coming up as well.

I have come to town to buy a few things to celebrate Christmas and New Years. The first week of the year (2008) Felia and I will come to the city briefly to a meeting here.

OK, well, this is a short letter. I am sending wishes for you to have a blessed Christmas and New Year 2008

1 Tim. 1:15

[Further message to Kato]

So, Kato, I have a telephone upriver here now! Some telephone companies have begun businesses here in Suriname.

Now you can get phones even in the jungle areas! Furthermore, there is a radio station AND a television station in Asindo Opo (where Naomi and Kato lived for 22 yrs!!!!)
