

## Other Activities this Summer

- Helped from the sidelines during two weeks of CrossWorld's candidate orientation. (Jerry mentoring/video taping & Vivian with the children)
- Jerry taught an adult VBS class at Tim's church.
- A week at one of CW's homes on the Jersey shore, sharing some of the time with our children & grandchildren, yea!

## Thank You

Words fail to express the gratitude of our hearts for your ongoing prayer and financial support. In these unstable economic times you faithfully encourage us in many ways. Thank you for continuing to make sacrifices which allow us to interact with others, grow spiritually and get to know Him more intimately. When we get to glory we'll see what surprises are in store for faithful people like yourselves!

## Welcome to Jeopardy

Imagine yourself standing in front of a television studio audience waiting to answer a \$5,000 question on Jeopardy. Yes, YOU!! You qualified for this program and now your knees are knocking, your heart pounding & your palms sweating. The question—"the world's highest teen suicide rate." Your mind races to all those statistics you've read or heard at one time or another. What about Mexico City, London, the Ukraine, Las Vegas? Oh, why does your mind draw a blank? It's right on the tip of your tongue. And then the person next to you hits

his buzzer. Alex Trebek calls his name & his answer... "What is Quebec?" What! that's not the right answer. But the guy is a winner & you go limp as the opportunity to pull ahead just slipped from your fingers.

The Canadian province of Quebec holds the record for the world's highest suicide rate among teens. Other titles it holds in Canada are #1 in: pornography, drug addiction, child abuse, violent crimes,

alcoholism and divorce. Forty percent of children are born out of wedlock.

It's to this part of the world that the sr. high young people from our home church will travel, July 31—August 10. We're asking God to unite us as we share the Gospel through puppets, drama and in work projects. Our team of 15 include three not-so-young people, the youth leader and ourselves. We pray that this dose of hard core reality in Montreal will enlarge

the kingdom, challenge and grow us in grace.

## CrossWorld Re-locates to Kansas City

You've probably heard that CW plans to move to Kansas City. It continues to keep its own identity but will share some services in a separate building on the campus of Avant Ministries. Our current economy caused these two organizations to think through the process of conserving

kingdom finances while hopefully expanding kingdom opportunities. Some changes begin next month while the final move takes place at the end of August 2010.

What does this mean to us? Jerry's job remains the same although his trips to the home office will no longer consist of

a one hour drive. His heart's desire remains unchanged, to get acquainted with & challenge this present generation to missions. Viv's job is in jeopardy. We thank God for His sovereign hand upon us in ministry since 1975. He hasn't changed and we rest in Him.
