

# SHUMAKER, Lucille

*Retired/Serving in IL*

---

November 2007

I haven't been up to par for the past few weeks. Still trying to get my my energy and strength. I had a flair up of hard breathing and heart palpitations, I thought I was having a heart attack, but the Dr. said no. (Thank you Lord.) It happened while I was bowling with my friends, and had to call my daughter Annette, to come pick me up, I was unsure of driving myself home. She came and brought me home and called my doctor and he said to take me to the emergency room at St. Joseph hospital here in Elgin. This is what we did and from the emergency room I was hospitalized for three days. Had all kinds of tests via machines, and many blood tests too. They all came back as normal. So just what happened in the beginning, the Dr. has no suggestion. I go to visit him again this coming Wed. (11/14/07),  
so somemore blood tests.

The Lord bless you all .

Love because of our Lord Jesus

Lucille Shumaker
